DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. **Claims 1-2, 4-5, and 7-8** are rejected under 35 U.S.C. 102(e) as being anticipated by Carter, SR. (hereinafter "Carter"; U.S. Patent Application Number 2002/0147049 A1).

Regarding **claim 1**, Carter discloses a method for enabling remote betting using cell phones (abstract, [00123] comprising:

providing a telephony interface configured to receive voice and location data from a cell phone associative with a phone session [0027],

determining gaming restrictions, from said cell phone location data; associating applicable gaming restrictions, with said phone session [0015],

receiving a first identifier through said telephony interface associative with said phone session; associating said first identifier with an age; using said age and said applicable gaming restrictions to determine allowable gaming-related actions [0036] – [0042];

receiving gaming-relating data associative with said phone session; and using said gaming-related data for at least one of placing bets [0036] – [0042].

Regarding **claim 2**, Carter further teaches the communicating of gaming-related restrictions [0015].

Regarding **claims 4-5, and 7-8**, these claims merely reflect the remote betting system using the cell phone and the system for performing the method steps of claims 1-2 respectively and are therefore rejected for the same reasons.

Allowable Subject Matter

2. **Claims 3, 6, 9** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Regarding **claims 3, 6, and 9**, the applied references fail to disclose or render obvious the claimed limitations, specifically the steps of :

receiving a second identifier through said telephony interface associative with said phone session, said second identifier being a biometric identifier;

associating said second identifier with said phone call;

receiving a further biometric identifier and comparing said second identifier with said further identifier upon one of starting gaming-related data reception or upon ending gaming-related data reception; and

rejecting said gaming-related data if said further biometric identifier and said second biometric identifier do not match.
